Grand Tourism

The Flandrien Hotel & Gallery is excited to launch 'Grand Tourism' a stunning Kristof Ramon exhibition, created to showcase Kristof's most iconic grand tour images over the last decade. Marvelous landscapes, stunning portraits and amazing cycling moments come together in one dedicated space.

Kristof Ramon is a Belgian photographer who began focusing his attention on the procycling world in 2005. From then on, he aimed for storytelling more than pure action photography. His empathetic and respectful relationships with professional cyclists allow him to take pictures of the most precious moments before, during and after races. Kristof has won the prestigious Nikon press photo award twice.

"Kristof is a long-time contributor to CyclingTips and is responsible for many of the incredible photos we've published over the last decade... he's a brilliant photographer." *Cyclingtips.com*

"The Belgian photographer Kristof Ramon is one of the most accomplished shooters on the Tour. His images are lush and dreamlike and capture cycling's most intimate moments in a way few others have." *Businessinsider.com*

"Kristof Ramon understands the beauty and emotion of what it means to be a professional cyclist. He is truly an artist." *Julian Alaphilippe*
